

**ELMOTO KICK**

## TECHNICAL DATA ELMOTO KICK

|                             |  |
|-----------------------------|--|
| <b>Battery system</b>       |   |
| <b>Vehicle class:</b>       | Personal Light Electric Vehicles with handlebar (without stanchion)  |
| <b>Top speed:</b>           | 20 km/h  |
| <b>Motor type:</b>          | Max. 450 W Drive Motor   Nominal output: 350 W<br>gearless, brushless wheel hub motor  |
| <b>Realistic range*:</b>    | up to 20 km  |
| <b>Battery type:</b>        | 2 Lithium Ion batteries (Einhell Power X-Change): 18V/5.2Ah  |
| <b>Battery charger:</b>     | Off-board twin charger 21V / 3A  |
| <b>Charging time:</b>       | approx. 2 hrs  |
| <b>Display:</b>             | Digital Tube Display (speed, battery status, daily and total distance)   |
| <b>Lights:</b>              | Front and Rear full LED lights   |
| <b>Tyres:</b>               | 10 Inch inflatable tyres (appr. 25 cm)   Tyre Pressure: 2.5 bar  |
| <b>Braking system:</b>      | Hybrid disc brakes (front and rear)  |
| <b>Frame:</b>               | A6061 Aluminium Alloy, with folding mechanism  |
| <b>Vehicle weight:</b>      | ca. 19 kg (with two batteries)   |
| <b>Max payload:</b>         | 120 kg   |
| <b>Dimensions:</b>          | 1200 x 585 x 1220 mm (L x W x H)   Wheelbase 910 mm  |
| <b>IP Rate:</b>             | IPX5   |
| <b>Additional features:</b> | Immobiliser, Street legal, Keyless driving, Colours: red, blue, black  |

\* The maximum range of 20 km was measured under the following conditions: 2x 5.2 Ah batteries, fully charged, driver weight 75 kg, 25°C temperature, level sidewalk, calm weather, constant driving at 15 km/h. Actual range may vary if the above factors change. In particular, the driving style, the weather, the topography and the weight of the driver have an impact on the range.
